ABOUT US & OUR PROFILE

ABOUT US

We **M/s. Gulf Fab Shade Engineering L.L.C** have been recognized as a well established and proficient structural designer and building firm in Sharjah, UAE.

As a specialized steel and shade contractor we have keen focus in constructing industrial, commercial/ residential buildings, factories, ware houses etc.

We have an outstanding and dedicated crew of engineers which makes us an expert in executing steel works for roof features and fabric shade structures. We are capable of executing any kind of project which is related to Steel structure , Tensile structure , Canopies and Car parking shades . Our services mainly include Design, Supply, Fabrication and Installation of Shade structures. Our fabrication and erection department executes projects according to the industrial QA/QC standard and our Engineering Design Department are supported with latest sophisticated Computer Aided System.

OUR PROFILE

We are promoting effective use of steel and fabric as construction materials. We do execute activities precisely and safety is our highest priority. We have following relevant standards and codes to sustain accuracy and quality of our production. Our welding procedure is pertinent to ANSI/AWS D1.1 Structural Steel Welding Codes and our painting system is as per BS 5493:1977, Codes of Practice for Protective Coating of Iron Steel Structures Against Corrosion.

Prominent services by qualified and experienced Managers, Engineers, Administration Staff and Skilled Workers makes **Gulf Fab Shade Engineering L.L.C** capable for delivering the highest quality products to our clients with in the time frame demanded. Equipped with most modern fabrication facilities and extensive machine shops, we are capable of producing any complicated structures.

As an experienced firm in steel structural and fabric shades we could work with the well-known organization such as Dubai Municipality, Dubai Airports, Abudhabi Education Council, Nakheel Properties, Aldar Properties, Dubai Police, Engineering Office, Lamprell, Wade Adams, Schlumberger, ETA Star Dubai. ETA M& E Division, AMBB Contracting, Tosolbond Composites etc.

MISSION & VISION

Carry out and execute any kind of projects related with steel & shade structures structure, industrial, commercial and residential buildings and other related projects with safety & quality and to become prominent firm in our specified field.

OUR ACTIVITIES

DESIGN

Gulf Fab Shade Eng. LLC is equipped with latest software in design & draughting. Lot of sophisticated structures have been designed and executed by our experienced engineers and draughting crews.

FABRIC ARCHITECTURE

Gulf shade has the engineering and technical capabilities to design and build all types of fabric structures by using HDPE,PVC and PTFE fabrics.

FABRICATION

Gulf Shade is using latest machineries in fabrication: experienced welders of gulf shade give assurance to their clients for their high quality works which has no records of failures.

PROTECTIVE

This process covers blasting and painting activities wherein fabricated steel structures are cleaned & applied with high quality paint, Color and DFT are always as per the client's specifications.

SUPPLY

We are committed to our objective of Delivering world class quality of products and services to our clients within the time demanded based on agreed specifications at competitive prices.

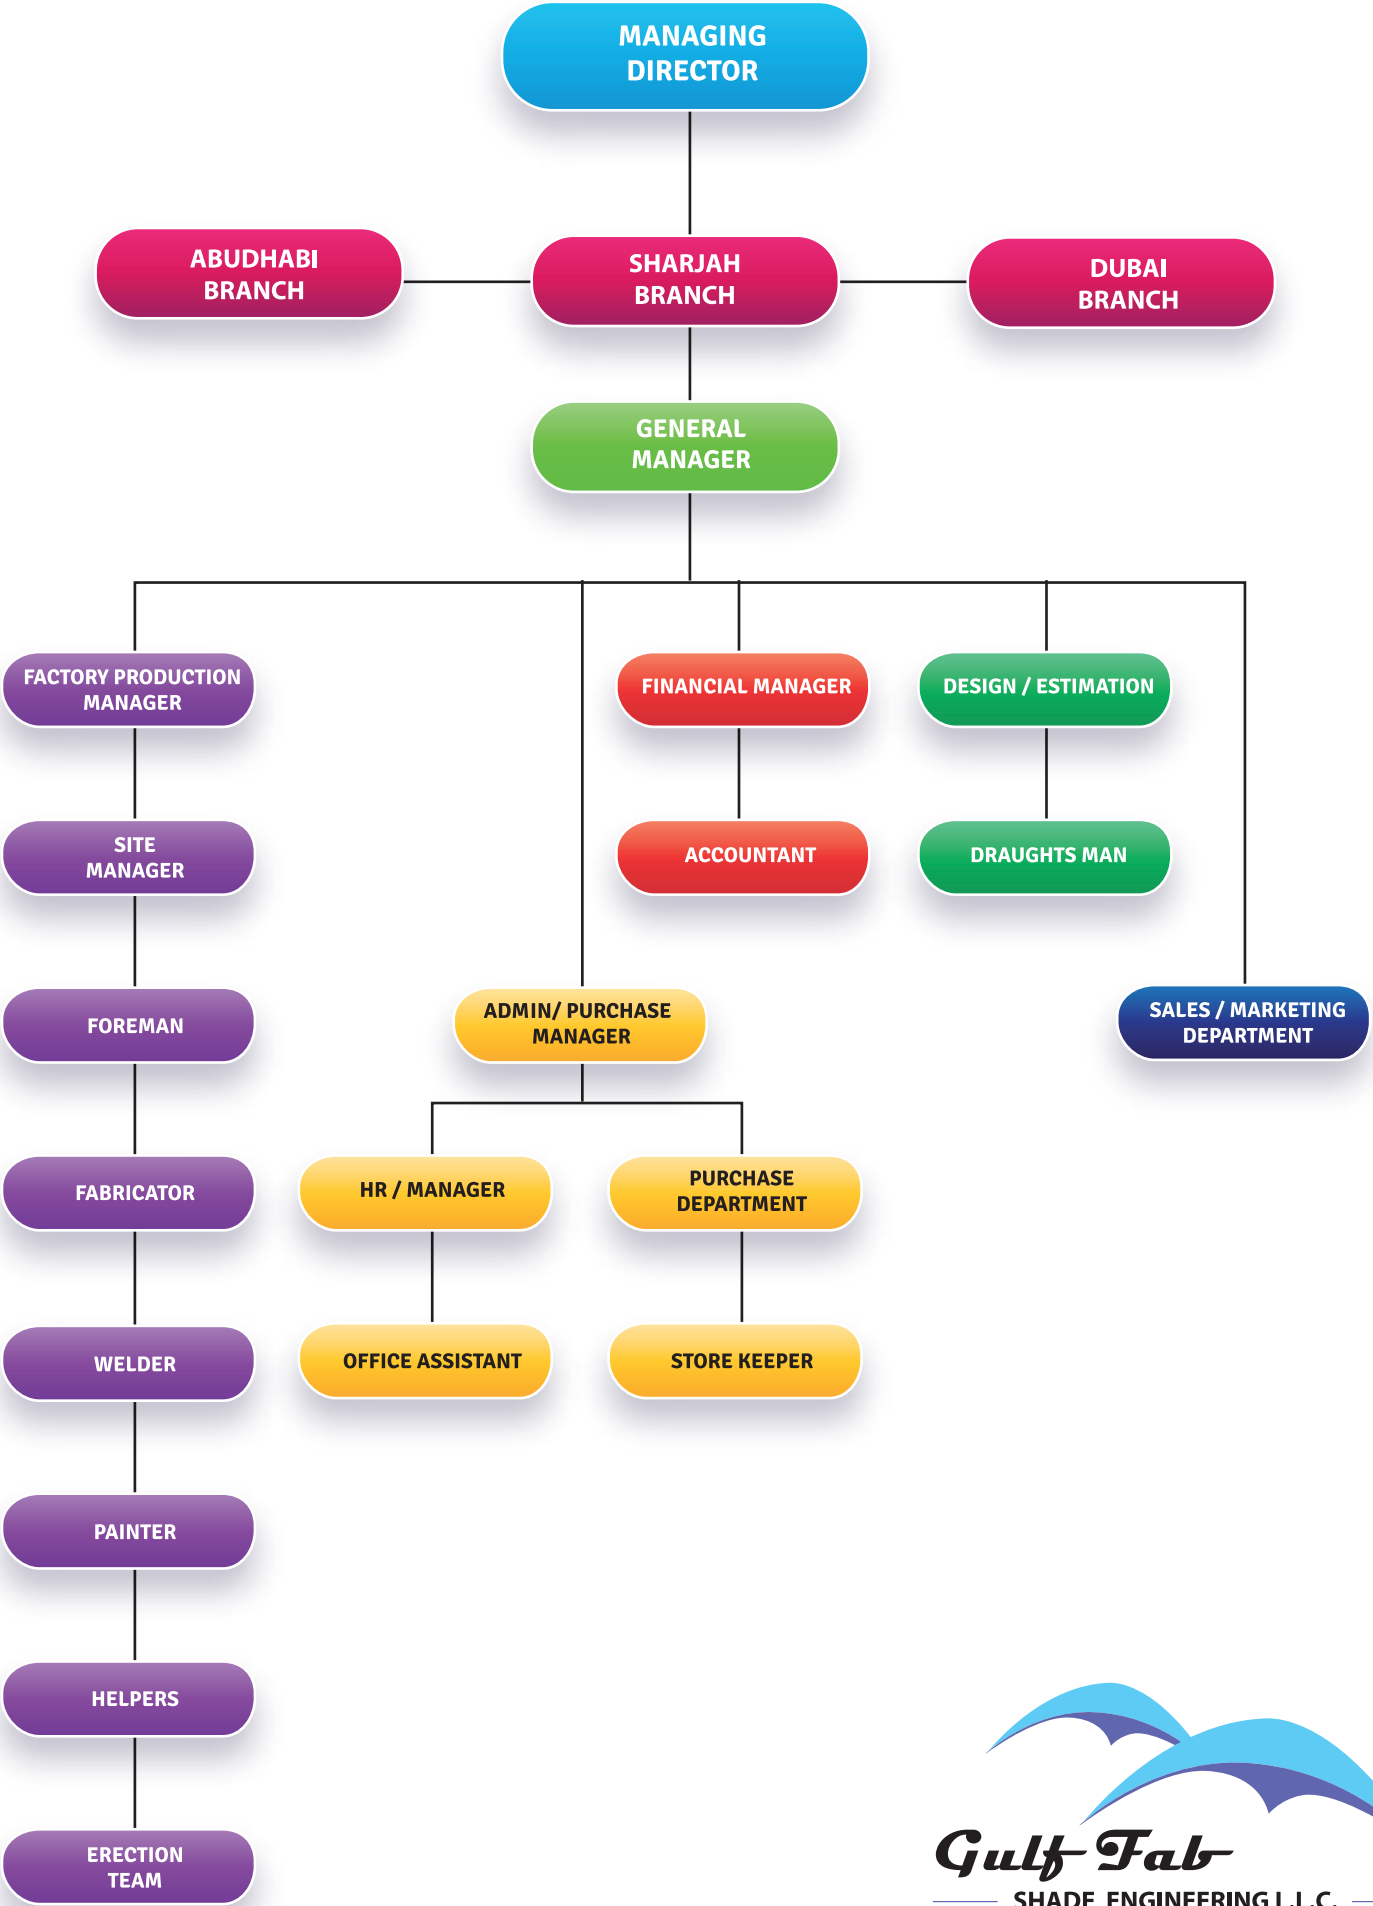

INSTALLATION

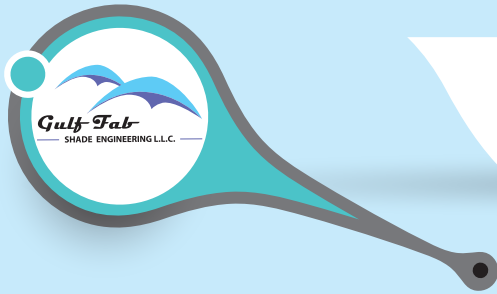

Working for long time the top of high rise building as well as on ground on complicated structures have helped the installation crews of Gulf shade to become more experienced and qualified to execute the erection in very efficient & safe mode.

MAN POWER

We are proud to claim that our organization is staffed with qualified, competence & intellectual people. Erudite administering body, cultural office staffs, experienced engineers & skilled workers comprise our very strong team. "Our strength is our People" experienced team is committed to quality and service that will meet our clients requirements & satisfaction.
